

Expect more from Elcolds' EL - range

Expect more from Elcolds' EL - range

If you need a reliable freezer that just does its job for years and years, we've got it!

No matter if you need a compact 200-litre freezer or the spacious 700-litre EL 71 - the biggest of its kind - you will find it in the EL-range.

Every freezer in the EL-range is manufactured to meet the highest quality standards, in our ISO-certified works in Denmark.

We have a more than 40-years tradition for designing and manufacturing well-functioning and efficient freezers. And today our freezers are at work all over the world.

Besides the unique reliability, they offer features like quick freeze, lock, strong baskets, drain, calendar and built-in light.

The EL comes with a handle lock

The lid light illuminates both the calendar and the contents of the freezer

The pull-out defrost drain and removable partition make defrosting easy

The control display gives a quick general view of the freezer's status

The EL can be delivered with stainless steel lid if requested
